MEMORANDUM

SUBJECT: Quarterly Statistical Report

5 OCT 1978

STAT

This quarterly report makes two changes from past issuances:

--The lines noting the number of customer requests are included as before. Many of these requests, however, were for more than one document or were met by furnishing more than one document. We have, therefore, added a "documents" line to reflect more accurately the scale of support for Congress.

--The policy of regularly providing copies of unclassified reports to 90 members of the eight oversight committees really took effect during the past quarter. To avoid distorting the figures in the body of the report, we have noted these major unclassified disseminations in a footnote.
